The Beijing Olympic has just finished on the 17th August, 2008. Although it has already finished, the athletes' sturdy mind didn't vanish, they are on The Earth now!

It seemed to be a competition of dancing. All the dancer completed it hardly. The result was coming. All the dancers were very nervous. Their heartbeats were being fast. When the judge stood out for telling the result, every dancer took a big breath. Their heartbeats were being faster and faster and the judge announced the result. The winner of this competition was so happy that she shouted crazily. Meanwhile the dancers who lost the competition were going to respectfully wishing the winner with joy.

Liu Xiang, the hurdler of China, was a very great person. He won a lot of competition of hurdles. He wanted to enter a hurdle race in the Beijing Olympic. He practiced hardly for the race. However, he broke his legs, so he couldn't

enter the hurdle race in the Olympic. This means you need to work hard but you can't work too much or you will be lose.

Another athlete, Li Ning, was also a wonderful athlete. However, this time was a gymnast. He was considerably great. In the old time, he won thousands of races. People love him very much. Li Ning is too old that he can't be a gymnast anymore. However, he loves to be a gymnast more than himself today, so he built up a company for selling sports wear. From Li Ning's mind, we can know that all the things in this world can be come true. Therefore, we need to seek when we want something.

The last athlete I want to talk about is Oksana Chusovitina, who is a marvelous athlete who wants to win the gymnastics race to get money for saving her son who has got a terrible defect, leukemia. She practiced hard. The great gymnast, Li Ning, was touched by Oksana Chusovitina's love. Therefore, he gave money to her. Oksana Chusovitina's heart was full of glad. She practiced harder and harder. Finally, she got a really great result in her competition, a silver medal. After that, she took the

money to help her son. She really is a good mother.

These stories are telling some good mind: all things in this world can be come true, don't give up because you may do anything and your love can touch people.
